

WASHING

Normal process at 95°C Mechanical action : normal Spinning : normal

Mild process at 95°C Mechanical action : reduced (1) Rinsing at gradually decreasing temperature (cool down) Spinning : reduced

Normal process at 60°C Mechanical action : normal Spinning : normal

Mild process at 60°C Mechanical action : reduced (1) Rinsing at gradually decreasing temperature (cool down) Spinning : reduced

Normal process at 50°C Mechanical action : normal Spinning : normal

Normal process at 40°C Mechanical action : normal Spinning : normal

Mild process at 40°C Mechanical action : reduced (1) Rinsing at gradually decreasing temperature (cool down) Spinning : reduced

Very mild process at 30°C Mechanical action : much reduced (minimum)(2) Spinning : reduced

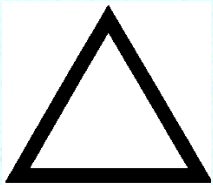

Hand wash Max. temperature:40°C

Do not wash

(1) For these articles a reduced loading of the machine and a higher liquor level are recommended
(2) Apart from the precautions under (1) the mechanical action of the machine must be reduced considerably, short washing and rising cycles, longer standstill periods or slower rotation speed

BLEACHING

Chlorine-based bleaching allowed (Only cold and in dilute solution)

Chlorine-based bleaching not allowed

IRONING

Ironing temperature HIGH (200° C max.)

Ironing temp. MEDIUM (150° C max.)

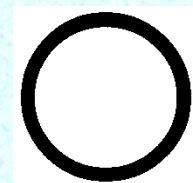

Ironing temp. LOW (1) (110° C max.)

Do not iron (2)

(1) Steaming and steam treatments could be risky (2) Steaming and steam treatments are not allowed

DRY CLEANING

All solvents used in dry cleaning allowed

Do not dry clean (Also do not stain removal with solvents)

Only solvents allowed : white spirit and solvent 113 (Self-service cleaning only in machines using solvent R113)

All solvents except trichloroethylene

The bar under the circle indicates that certain limitations in the drycleaning process are required. These may concern mechanical action and/or drying temperature and/or water addition in the solvent. No self-service cleaning allowed

TUMBLE DRYING

Normal drying

Drying at a lower temperature setting

Do not tumble dry
